The Creation Research Society (CRS) is a Christian ministry dedicated to showing that science confirms Scripture, and to reaching the world with the truth of God's awesome creation.

CRS was organized in 1963 with the purpose of demonstrating through research and study that science confirms the Biblical account of creation, age of the earth, and the Genesis flood. The Society has five major areas of focus:

1. Publish a technical journal, the *Creation Research Society Quarterly*, which provides in-depth analysis of current areas of scientific understanding, and a popular-level publication, *Creation Matters*, which features non-technical articles on a variety of current issues.
2. Publish and distribute books on a variety of scientific fields in the creation/evolution controversy.
3. Conduct field, laboratory, and library research to develop and test scientific models of creation.
4. Provide research grants and facilities to experienced creation scientists for approved research projects.
5. Reach out to the world with physical evidence that demonstrates that science confirms Scripture. We now have a speakers' bureau, comprised of highly-trained scientists able to speak to churches, schools, and other organizations on a wide variety of creation topics.

CRS membership is open to anyone subscribing to the Society's Statement of Belief (see our web site: www.CreationResearch.org).

CRS is impacting our culture through our publication and outreach efforts. We rely on the support of individual Christians, churches, and organizations for both prayer and financial support. Your partnership with us can be in several forms:

Continuing Partner—monthly contribution

Donor—single or annual contribution

Membership in the Society

Planned Giving—inclusion of CRS in your estate plans

ASTRONOMY/PHYSICS

Our Created Moon:

Earth's Fascinating Neighbor

Donald D. DeYoung and John Whitcomb

2010. Master Books, 94 pages (hard cover).
Regular price - \$16.00, Member price - \$14.00.

This is an updated and expanded version of the book by the same title. It discusses many questions about the moon in a question-and-answer format, including the origin and purpose of the Moon. It has been redeveloped as an educational resource for use in classroom study, independent learning, and homeschool settings. The colorful pictures provide a fascinating and up-close look at our nearest astronomical neighbor.

Taking Back Astronomy:

The Heavens Declare Creation

Jason Lisle

2006. Master Books, 128 pages (hard cover).
Regular price - \$16.00, Member price - \$13.75.

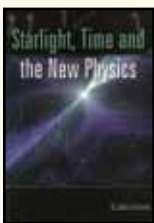

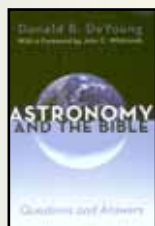

In this colorfully illustrated book, Dr. Lisle discusses and debunks popular evolutionary concepts. He also provides answers to Biblical questions related to the Big Bang and how the speed of light affects the Bible's account of history.

Astronomy and the Bible

Donald D. DeYoung

2010. BMH Books, 155 pages.
Regular price - \$15.00, Member price \$12.75.

Astronomy and the Bible is a 155-page paperback which answers 100 intriguing questions about astronomy and science. Subtitled "Questions and Answers", the questions range across subjects such as the earth and the moon, the solar system, the stars, galaxies and the universe, and general science. The book includes a new, helpful series of seasonal star charts for the Northern Hemisphere, along with a general and a scripture index.

Starlight, Time and the New Physics

John Hartnett

2007. Creation Book Publishers, 232 pages.
Regular price - \$15.00, Member price - \$12.75.

Inspired by the pioneering work of creation physicist D. Russell Humphreys, and building on the work of secular cosmologist Moshe Carmeli, physics professor John Hartnett presents another exciting hypothesis for the starlight time problem. The solution is based on time dilation in the theory of relativity. It also does away with the need for unobserved dark matter and dark energy. The book is geared toward the motivated layman, but there are six technical abstracts to back up his thesis.

Stars and Their Purpose:

Understanding the Origin of Earth's "Nightlights"

Werner Gitt

2006. Master Books, 211 pages.
Regular price - \$13.00, Member price - \$10.00.

Written for junior high students to adults, this book delves into many aspects of stars, including their vast numbers, their differences, why they were created, their possible messages, and Who created them. There is even a chapter on the meaning of the star of Bethlehem. Detailed appendixes delve into topics of the solar system, how the universe is specially created for Man, and the problems of the "Big Bang."

Universe by Design:

An Explanation of Cosmology and Creation

Danny Faulkner

2004. Master Books, 143 pages.
Regular price - \$14.00, Member price - \$12.00.

The stars and planets are viewed through a Biblical perspective in this unique book. The author explains the historical development of the science of astronomy, including current ideas in the field, and provides a creationist viewpoint. (semi-technical)

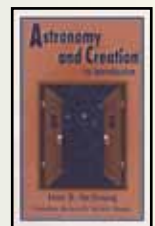

Astronomy and Creation:

An Introduction

Donald B. DeYoung

1995. Creation Research Society, 59 pages.
Regular price - \$5.00, Member price - \$3.50.

This book delves into the origin, order, structure, and time scale of the universe from a creationist perspective.

Starlight and Time:

Solving the Puzzle of Distant Starlight in a Young Universe

D. Russell Humphreys

1994. Master Books, 133 pages.
Regular price - \$8.00, Member price - \$6.50.

Using concepts from the general theory of relativity, Dr. Humphreys derives a young earth solution that offers an explanation for the existence of starlight billions of light years away in a young universe. There is a technical section at the end of the book. (semi-technical)

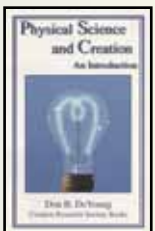

Physical Science and Creation:

An Introduction

Donald B. DeYoung

1997. Creation Research Society, 81 pages.
Regular price - \$5.00, Member price - \$3.50.

Covers the building blocks of physics including motion, gravity, forces, energy, and various topics important to the creation/evolution issue.

ASTRONOMY/PHYSICS

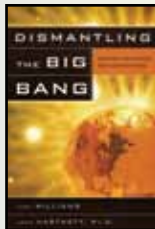

Dismantling the Big Bang:

God's Universe Rediscovered

Alex Williams & John Hartnett

2005. Master Books, 346 pages.
Regular price - \$15.00, Member price - \$12.75.

The authors challenge many of the naturalistic assumptions of the Big Bang Model and argue that the Biblical model provides a far better explanation of our origins. (semi-technical)

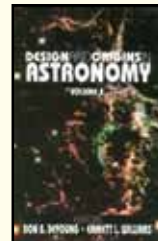

Design and Origins in Astronomy, Volume 2

Don B. DeYoung & Emmett L. Williams (editors)

2002. CRS Monograph Series No. 12, Creation Research Society, 163 pages.

Regular price - \$11.00, Member price - \$7.70.

This is a compilation of articles from the Creation Research Society Quarterly on such topics as the age of the sun, impact craters in Arizona and on the moon, planets and magnetism, speed-of-light studies, stellar evolution, comets, and dark matter. (semi-technical)

Distant Starlight — A Forum:

Creationist Solutions to the
"Light-Travel Problem"

John Hartnett & Russell Humphreys

2011. Creation Ministries International,
55 min. DVD.
Regular price - \$13.00, Members price - \$11.00.

Two of the world's leading creationist cosmologists seek to explain how distant starlight, allegedly millions of light years away, could reach the earth within a 6,000 year biblical timeline. The answers show that big bang cosmology is increasing becoming untenable.

Energy and the Death of the Universe

How Science Sees the Curse

Norm Crawford

2011. Arizona Origin Science Association,

55 min. DVD.
Regular price - \$13.00,
Members price - \$11.00.

Norm Crawford has been studying questions of physics and thermodynamics for nearly 20 years. He has worked in a practical engineering environment in the areas of thermodynamics and systems modeling. In this DVD, Mr. Crawford explains some tough technical issues in laymen's terms and gives insights on God's creation that will make you re-think some of our pre-conceived ideas on what the original created world may have been like, and what we have to look forward to in the restoration of God's perfect order

The Heavens Declare: Beyond the Milky Way

Featuring John Hartnett

2010. Iachod Visuals, 52 min. DVD.
Regular price - \$15.00, Member price - \$13.00.

The narrator and Dr. Hartnett take us on a journey through the universe, starting close to the Earth and traveling to the distant galaxies. On the way, they show us a wide array of spectacular galaxies and nebula, showing the glory of God's creation. Then Dr. Hartnett describes a new theory on how to explain the creationist starlight/time problem, also a problem in the secular Big Bang model, by gravitational time dilation.

The Heavens Declare: The Solar System

2008/2009. IACHOD, 52 min. DVD.
Interview with John Hartnett
Regular price - \$15.00, Member price - \$13.00.

This DVD details all wonderful discoveries in our solar system. Secular astronomers think that life may be found elsewhere in the solar system, but each planet and moon in the solar system is unique and the Earth is special for life.

Creation & Cosmology

Danny Faulkner

2007. Answers in Genesis, 63 min. DVD.
Regular price - \$13.00, Member price - \$11.00.

By dissecting various flaws in past and current Big Bang models, astronomer Dr. Danny Faulkner encourages Christians to critically examine all cosmology theories. He also gives an overview of the evolving theories in secular astronomy. Good for teens and adults.

The Debate Over the Age of the Earth

2007. The American Vision, 111 minutes 2 DVDs.
Regular price - \$25.00, Member price - \$21.00.

Dr. Hugh Ross and Dr. Danny Faulkner, both creation research scientists, agree on many Biblical issues, but the age of the earth is not one of them. Did God create the world billions of years ago, or only a few thousand? Watch this debate and decide for yourself where the truth lies. (semi-technical)

Created Cosmos: A Creation Museum Planetarium Show

Jason Lisle

2007. Answers in Genesis, 22 min. DVD.
Regular price - \$15.00, Member price - \$13.00.

Our universe is truly an amazing thing. The vastness of space boggles the mind, and the beauty and diversity we find there points to a Creator. The Psalmist wrote, "When I consider Your heavens, the work of Your fingers, the moon and the stars, which You have ordained, what is man that You are mindful of him, and the son of man that You visit him?"

Beginning from a stunning perspective just above the International Space Station, this fast-moving DVD probes the reaches of space as you are taken on a journey beyond our solar system to the edge of the known universe . . . and back again! Combining eye-popping images and state-of-the-art animation with faith-affirming facts from science and Scripture, this awe-inspiring planetarium show reveals amazing facts about our universe while exalting God as Creator. You will travel thousands of light-years between billions of planets, stars, nebulae, and galaxies to discover the magnitude of our universe and of its Creator. The result is that a difficult message—the immense size and scale of the universe—is made simple!

"Distant Starlight" Not a Problem for a Young Universe

Jason Lisle

2006. Answers in Genesis, 47 min. DVD.
Regular price - \$13.00, Member price - \$11.00.

A summary of the starlight-time problem by a creationist astrophysicist. Dr. Lisle discusses creation solutions that are unlikely and summarizes several of the possible models, all of which need more work. The starlight-time problem is not strictly a problem for creationists since the Big Bang model also has a similar problem called the horizon problem.

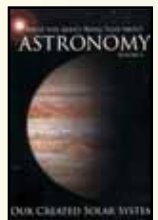

What You Aren't Being Told About Astronomy Vol. 1: Our Created Solar System

Spike Psarris

2009. Creation Astronomy Media, 106 min. DVD.
Regular price - \$15.00, Member price - \$13.00.

In this DVD, you will tour our magnificent Solar System with amazing photographs and graphics from NASA and other sources. You will see how the planets and their moons defy evolutionary speculation on their origins. Some planets should not even exist according to evolutionary models. These many problems with a naturalistic origin of the bodies of the solar system supports creation as the most viable option.

COSMOS: Created & Young! Featuring D. Russell Humphreys

2010. Creation Ministries International, 116 min. 4 DVD set.
Regular price - \$30.00, Member price - \$26.00.

Even many scientists don't know that most dating techniques indicate the world cannot be billions of year old, but much younger, as young as thousands of years. Examples: galaxies, comets, supernovas, ocean sediments, sea salt, planet magnetic fields, fresh dino bones, undecayed DNA, stone-age graves, and the shortness of history.

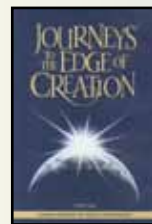

Even the minority of dating methods which, at first sight, give ages up to a billion years, upon closer examination give ages of only thousands of years. Carbon dating of fossils and diamonds shows that the method has now become the friend of creationists. Helium in allegedly billion-year-old minerals shows that most of their uranium decayed to lead within the last 6,000 years, thus supporting the young biblical age of the earth.

Starlight and Time (updated)

Featuring D. Russell Humphreys
2005. Answers in Genesis, 27 min.
Regular price - \$13.00, Member price - \$11.00.

Explains Dr. Humphreys' theory on how to explain the existence of starlight from billions of light years away in a young universe.

Journeys to the Edge of Creation (1) Our Solar System (2) The Milky Way and Beyond

1996. Moody Institute of Science, Each about 40 min.
2 DVD set.
Regular price - \$25.00, Member price - \$20.00.

Using observations from the Hubble telescope, the cosmos is seen to be a most brilliant and beautiful creation of God. Scientists interviewed include CRS board member Dr. Danny Faulkner.

The Young Sun: Is the Sun Really Billions of Years Old?

2007, IACHOD Visuals, 44 min. DVD.
Regular price - \$15.00, Member price - \$13.00.

This DVD is a history/discovery style documentary that looks closely into the known processes on the sun. It explores the most popular theories about the origin of our sun and shows why it is possible that any of these theories of star formation explain the origin of the Sun.

BIOLOGY

NEW!

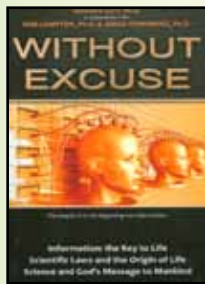

Without Excuse

Werner Gitt

2011. Creation Book Publishers, 352 pages.

Regular price - \$15.00, Members price - \$13.00.

A powerful sequel to *In the Beginning was Information*. With his co-authors, information scientist Dr. Werner Gitt provides the most rigorous and useful definition of information thus far. He distinguishes this Universal Information (real information) from things often mistakenly called information, and shows how ultimately all biological information comes from God. Gitt's evangelist heart also shines through this academically rigorous work.

The Lie: Evolution

Ken Ham

1987. Master Books, 185 pages.

Regular price - \$11.00, Member price - \$9.50.

Ken Ham presents a defense of the book of Genesis, and why it is an essential foundation for the Christian doctrines of evil, sin, salvation, marriage, and homosexuality. He also shows why the teachings of evolution are not compatible with Biblical teachings.

By Design: Evidence for Nature's Intelligent Designer — the God of the Bible

Jonathon Sarfati

2008. Creation Book Publishers, 260 pages. Regular price - \$15.00, Member price - \$13.00.

Today, the ID (Intelligent Design) movement is capturing headlines (and igniting controversy) around the world. But in the process, many are coming to think that a credible challenge to the dominant Darwinian naturalism of our time means backing away from a clear stand for the truth of the Bible. Dr. Sarfati provides an exhaustive treatment of the subject of design with many examples of extreme design. He also addresses such arguments as supposedly "poorly designed" creatures, "bad things" in nature, supposed arguments against design, and even tells us Who the designer is.

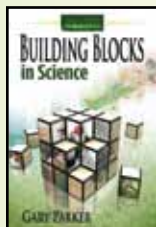

Building Blocks in Science

Dr. Gary Parker

2007. Master Books, 160 pages. Regular price - \$15.00, Member price - \$12.00.

First in a new series, former evolutionary biologist Gary Parker lays an important foundation in science with this illustrated study; topics include: early man, fossils, DNA, and much more.

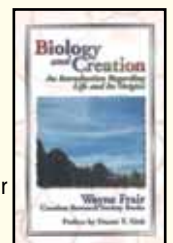

Biology and Creation: An Introduction Regarding Life and Its Origins

Wayne Frair

2002. Creation Research Society, 86 pages.

Regular price - \$5.00, Member price - \$4.00.

Contains a discussion on the origin of life, of cells, and of multicellular organisms. It contrasts atheistic and theistic concepts.

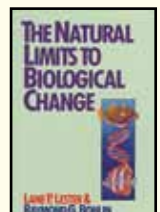

The Natural Limits to Biological Change

Lane P. Lester & Raymond G. Bohlin

1984. Probe Ministries, 207 pages.

Regular price - \$12.00, Member price - \$10.00.

Evaluates the evolutionary ideas of change, showing that gradualism lacks fossil evidence, and punctuated equilibrium is missing a credible biological mechanism. The evidence favors limited variation within the Genesis kind. (semi-technical)

The Genesis of Germs:

The Origin of Diseases & the Coming Plagues

Alan L. Gillen

2007. Master Books, 187 pages.

Regular price - \$15.00, Member price - \$12.00.

The concept of disease and germs can be difficult for Christians to understand in a creationist worldview. The author sheds light on the origin of germs and how they fit into a Biblical worldview, and the possible function of these microbes before the fall. He also considers how these constantly mutating pathogens are not evidence for evolution, but rather of de-evolution. Chapter topics include beneficial microbes, how our immune system was created to interact with microbes, and the possibility of present and future pandemics. (semi-technical)

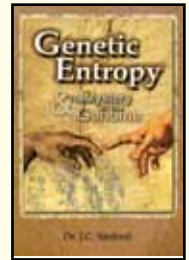

Genetic Entropy & The Mystery of the Genome (second edition)

John Sanford

2008. Feed My Sheep Foundation, 228 pages.

Regular price - \$17.00, Member price - \$14.50.

Dr. Sanford's popular book explores the limitations of evolution's primary axiom. This axiom is the evolutionary change (i.e., common descent) is accomplished by a combination of natural selection and random mutations. Using modern genetics research, the former Cornell University scientist provides several challenges to this axiom. Organisms, including humans, are declining in health, not evolving to more advanced stages of evolution. This newest edition contains the addition of a glossary, index, and author's notes. (semi-technical)

The Case Against Darwin:

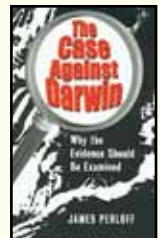

Why the Evidence Should Be Examined

James Perloff

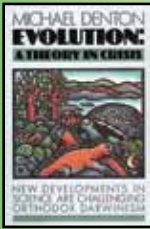

2002. Refuge Books, 83 pages.

Regular price - \$8.00, Member price - \$6.50.

Non-technical book that succinctly summarizes numerous arguments against Darwinism.

BIOLOGY

Evolution:

A Theory in Crisis

Michael Denton

1986. Adler and Adler, 368 pages.

Regular price - \$15.00
Member price - \$14.00.

Written over 20 years ago, this book is still considered a classic criticism of neo-Darwinism. Employing what was then the new study of molecular genetics, Dr. Denton shows that genetics does not support the claims of Darwinism. (semi-technical)

Price Reduced

The Human Body:

An Intelligent Design (second edition)

Alan L. Gillen, Frank J. Sherwin, & Alan C. Knowles

2001. CRS Monograph Series No. 8. Creation Research Society, 171 pages.
Regular price - \$15.00,
Member price - \$10.00.

Price Reduced

A distinctive creationist approach to human physiology. For senior high and adults. Black and white illustrations throughout. (semi-technical)

The Biotic Message:

Evolution Versus Message Theory

Walter James ReMine

1993. Saint Paul Science, 538 pages (hard cover).

Regular price - \$20.00,
Member Price - \$18.00.

Price Reduced

The author argues that life on earth was constructed so that a scientifically determined and tested message proclaims that life came from a Designer. This observable evidence contradicts naturalism. The book is authoritative and intended for the serious student of science. (semi-technical)

Not by Chance!

Shattering the Modern Theory of Evolution

Lee Spetner

1996. The Judaica Press, 272 pages.

Regular price - \$16.00,
Member price - \$13.00.

Shows that chance mutations cannot provide the prodigious information required for macroevolution to be believable. (semi-technical)

Body of Evidence

David Menton

2011. Answers in Genesis, 60-80 min.

8 DVD set
Regular price - \$90.00,
Members price - \$80.00.

Individual DVDs
Regular price - \$15.00,
Members price - \$13.00.

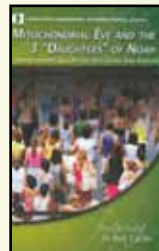

NEW!

This is an 8 set (16 parts) DVD series on human anatomy and physiology presented in a Creator honoring way. In his humorous and insightful way, Dr. Menton takes two teens on a teaching tour through the major systems of the body. He employs anatomical props, models, and microscopic images to teach God's amazing design for life that will leave the viewer in hushed awe at the Creator's wisdom. Great for anyone studying the human body and to show skeptical friends the amazing evidence for design. A free copy of the book *Body of Evidence DVD Study Questions* is included when you purchase the complete set of DVDs.

Titles include:

- Cells and Tissue
- The Skeletal System
- The Integumentary System (Skin)
- The Cardiovascular System (Heart)
- The Respiratory System (Lungs)
- The Digestive System
- The Urinary System
- The Hearing Ear & Seeing Eye.

NEW!

Mitochondrial Eve and the 3 "Daughters" of Noah:

Human Genetic Data Fits the Bible Better Than Evolution

Robert Carter

2011. Creation Ministries International, 37 min. DVD.
Regular price - \$13.00, Members price - \$11.00.

Exciting modern genetic research upholds the Bible's three historical "main events" that have left an indelible mark on our genetic makeup: Creation, the Flood, and the Tower of Babel. It's there if you know where to look for it!

Creatures Do Change But It's Not Evolution:

How Natural Selection Supports the Bible

Don Batten

2011. Creation Ministries International, 48 min. DVD.
Regular price - \$13.00, Members price - \$11.00.

NEW!

Mutations and natural selection contradict evolutionary story-telling so that microbe to microbiologist evolution is impossible. See the incredible workings inside cells with the latest, original, cutting-edge animation showing how cells make proteins. Its mind-blowing! It defies evolution and shouts "Creation!"

Incredible Creatures that Defy Evolution Vol I, II, III

2000, 2002, 2004. Exploration Films, 50 min. DVD.

Regular price - \$20.00, Member price - \$17.00.

Extremely popular and entertaining presentation of creatures whose intricate and amazing design cannot be explained by evolution, and can only be explained as being the handiwork of a Creator and Designer.

BIOLOGY

Chemicals to Living Cell: Fantasy or Science?

Jonathon Sarfati

2008. Creation Ministries International, 57 min. DVD.

Regular price - \$13.00,
Member price - \$11.00.

The first step in evolution is the change from chemicals to the first cell, called chemical evolution. It can only occur by chance and time—natural selection does not start operating until the first cell supposedly formed. (semi-technical)

Cloning, Stem Cells and the Value of Life

Mike Riddle

2007. Answers in Genesis, 53 min. DVD.

Regular price - \$13.00,
Member price - \$11.00.

Popular creationist speaker Mike Riddle takes on one of today's hottest topics. He uses powerful illustrations to give a realistic look into some of today's most compelling genetic breakthroughs. Cloning and stem cells are discussed along with the health and ethical issues surrounding these matters. In closing, Riddle shows that the Bible and the scientific evidence confirm that we are fearfully and wonderfully made. A powerful pro-life DVD.

The Mystery of Our Declining Genes

John Sanford

2009. Creation Ministries International, 49 min. DVD.

Regular price - \$13.00,
Member price - \$11.00.

The science of genetics is proving to be a powerful tool for creationists. Geneticist, Dr. John Sanford, shows that with a conservative estimate of the mutation rate today, and the fact that good mutations are very rare, natural selection causes a decrease in fitness with time. Every organism is decaying faster than good mutations accumulate. This is called genetic entropy and falsifies evolution, but upholds the young earth model. Sanford shows how the computer model, called Mendel's Accountant, dramatically and powerfully falsifies evolution. (semi-technical)

Fearfully & Wonderfully Made

David Menton

2005. Answers in Genesis, 63 min. DVD.

Regular price - \$13.00,
Member price - \$11.00.

Dr. David Menton draws upon his years of teaching university anatomy, to explain how anatomical science and biology reveal the truth of Psalm 139:13-16, which says that God weaves us together in the womb. This illustrated lecture reveals the amazing and intricate design of the womb and the processes of fertilization, implantation, embryonic development and birth itself.

A Creationist Perspective of the Human Genome

Kevin Anderson, Ph.D.

2010. Arizona Origins Science Association, 54 min. DVD.

Regular price - \$13.00,
Member price - \$11.00.

Dr. Anderson discusses the amazing design of the human genome. Providing details of recent discoveries, he provides insight into how the genome's design challenges evolutionary explanations. He shows how evolutionists have offered many incorrect assumptions about how the genome was constructed, functions, and supposedly evolved. He concludes that evolution cannot explain the nature of the genome. Instead, a creation model is the superior explanation for both the origin and the design of the genome.

Apemen

"Missing Links" & the Bible

Philip Bell

2006. Answers in Genesis, 53 min. DVD.

Regular price - \$13.00,
Member price - \$11.00.

In his lecture, Philip Bell quotes evolutionists stating that the popular illustrations and models of ape-to-man succession are actually an illusion, figments of overly creative imaginations. Bell reveals that ideas and theories in science are constantly changing, but the ones that are consistently proven correct are those that agree with the Biblical record.

Life's Story:

The One That
Hasn't Been Told

Nick Jackson (narrator)

2006. Exploration Films, 56 min. DVD.

Regular price - \$20.00,
Member price - \$17.00.

This DVD shows the clear demonstration of the marvels of creation. These same marvels contradict the claims and teaching of evolution. Spectacular footages are shown of wildlife both under the sea and on land that demonstrates this point. Suitable for 10 years to adult.

Life's Story 2:

The Reason for the Journey
Nick Jackson (narrator)

2006. Exploration Films, 100 min. DVD.

Regular price - \$20.00,
Member price - \$17.00.

The sequel to Life's Story, this DVD provides a factual and visual feast that unravels some of the most amazing mysteries of the natural world. Many unusual, rare, and endangered species are featured including animal behavior never filmed before. The marvels of creation and the bankrupt belief of evolution are demonstrated throughout the DVD.

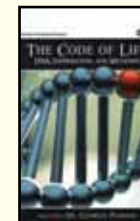

Does Biology Make Sense Without Darwin?

David Menton

2007. Answers in Genesis, 56 min. DVD.

Regular price - \$13.00,
Member price - \$11.00.

Dr. Menton brings a wealth of knowledge from a long career in biology to answer this important question. It is often claimed that nothing is biology make sense except in the light of evolution, but Dr. Menton, with his lighthearted humor, exposes this claim. Examining evolutionist claims about the eye, the origin of feathers, and human hair, the answer to the question becomes an emphatic YES!

The Code of Life:

DNA, Information, and Mutation

Georgia Purdom

2007. Answers in Genesis, 45 min. DVD.

Regular price - \$13.00,
Member price - \$11.00.

This DVD explores the fascinating world of DNA and clearly shows that "junk" DNA isn't junk. It shows that mutations and natural selection are headed in the wrong direction, corrupting and decreasing information in DNA, and making evolution impossible. (semi-technical)

Formed to Fly

David Menton

2007. Answers in Genesis, 61 min. DVD.

Regular price \$13.00,
Member price \$11.00.

Biologist Dr. David Menton provides scientific information that confirms that birds have always been birds! They did not evolve from dinosaurs, as evolutionists claim. Menton compares the feathers of birds to the scales of reptiles. He shows that contrary to the claims of evolutionists, it is biological nonsense to claim that one evolved from the other.

The Blind Watchmaker?

Access Research Network 1997.

74 min. DVD.

Regular price - \$25.00,
Member price - \$22.00.

Philip E. Johnson became a skeptic regarding Darwinism after reading Richard Dawkins' book, The Blind Watchmaker. He concludes that belief in Darwinian evolution was not based on empirical facts, but rather on a dogmatic adherence to naturalism. Johnson argues that Dawkins' book is a type of evangelistic promotion for atheism with little basis in observable science.

EARTH SCIENCE/DATING METHODS

True North Series Your Guide to Zion and Bryce Canyon National Parks: A Different Perspective

Michael Oard, Tom Vail, Dennis Bokovoy, and John Hergenrath,

2010. Master Books, 190 pages.
(hard cover and spiral binding).
Regular price - \$16.00, Member price - \$14.00.

Continuing in the insightful and uplifting tradition of the True North Series, this unique, full-color visitor's guide unveils God's powerful hand in the grandeur of the vertical walls of Zion, the colorful hoodoos of Bryce Canyon, and all the diversity of life found in these stunning displays of creation.

True North Series Your Guide to the Grand Canyon: A Different Perspective

Tom Vail, Mike Oard, John Hergenrath, and Dennis Bokovoy

2008. Master Books,
192 pages (hard cover).

Regular price - \$15.00, Member price - \$12.75.

This guide provides an alternative view of the geology of the Grand Canyon showing that the Flood much better explains the rock strata than does the idea of slow processes over millions of years. It also provides a guide to the Canyon's plants, animals, history, and climate. A definitive guidebook for vacation planning or educational purposes—all in full color.

Road Guide to the John Day Area of Central Oregon

Dennis Bokovoy, Harold Coffin, & John Hergenrath

2004. Creation Research Society, 61 pages.
Regular price - \$6.00, Member price - \$4.50.

This spiral-bound book provides a mile-by-mile log of significant geological features along with interesting historical tidbits, all from the creation-flood perspective.

Footprints in the Ash: The Explosive Story of Mount St. Helens

John Morris & Steven A. Austin

2003. Master Books, 128 pages
(hard cover).
Regular price - \$17.00,
Member price - \$14.50.

Many unusual processes that occurred during the eruption of Mount St. Helens provide an understanding of catastrophic processes that occurred during the Flood. Beautifully illustrated throughout.

Frozen in Time The Woolly Mammoths, the Ice Age and the Biblical Key to their Secrets

Michael Oard

2004. Master Books, 217 pages.
Regular price - \$13.00,
Member price - \$11.00.

The Ice Age and the frozen woolly mammoths are some of the most difficult aspects in geological history for uniformitarian scientists to explain. Plausible explanations from a creationist perspective are provided for general audiences.

The New Creationism

Paul Garner

2009. Evangelical Press,
304 pages.
Regular price - \$16.00,
Member price - \$14.00.

This is a comprehensive book on the creation/Flood model that lists the latest creationist research and models in astronomy, geology, biology, paleontology, etc. at a level the layperson can understand.

Grand Canyon: A Different View

Tom Vail (editor)

2003. Master Books, 104 pages
(hard cover).

Regular price - \$17.00, Member price - \$14.50.

Illustrated with breath-taking pictures of Grand Canyon, this book challenges the evolutionists' claims of both the age and the origin of the canyon.

The Great Turning Point: The Church's Catastrophic Mistake on Geology—Before Darwin

Terry Mortenson

2004. Master Books,
272 pages.
Regular price - \$14.00,
Member price - \$12.00.

The Church's compromise with evolutionary naturalism actually started before Darwin. Dr. Mortenson describes the efforts of seven men, called Scriptural geologists, who resisted this trend and published many arguments that are reminiscent of contemporary arguments.

Geology and Creation:

100 Questions and Answers from a Biblical Perspective

Don DeYoung

2004. Creation Research Society, 166 pages.
Regular price - \$12.00,
Member price - \$8.40.

Presents non-technical answers to 100 of the most-asked questions in earth science. Dr. DeYoung shows that geology, properly interpreted, supports a recent creation and catastrophic events such as the global flood of Noah's day.

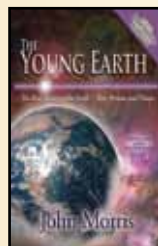

Flood Legends: Global Clues of a Common Event

Charles Martin

2009. Master Books, 158 pages.
Regular price - \$13.00,
Member price - \$11.00.

The story of a global flood permeates nearly every culture in the world in some way, shape, or form. There are literally hundreds of these flood myths. Many of these myths have an uncanny similarity to the Genesis flood, and this book documents these similarities. Despite some mythologists misgivings, it seems obvious that these myths point to the cultural reality of the global Flood, distorted by generations of retelling the event.

The Young Earth (Revised and Expanded)

John D. Morris

2007. Master Books, 144 pages.
Regular price - \$18.00, Member price - \$15.00.

Updated and expanded, this classic work from the president of the Institute for Creation Research is a guide for the layman to the truth of Genesis. Morris studies geology, culture, and various creation theories to give a true picture of Earth history. Explodes popular misconceptions about the age of the earth by exposing the shaky reasoning behind radiometric dating; Morris's discussion of these fallacies alone is worth the price of the book.

EARTH SCIENCE/DATING METHODS

Thousands...Not Billions

Don DeYoung

2005. Master Books, 190 pages.
Regular price - \$14.00, Member price - \$11.00.

This non-technical book is the laymen's guide to the Radioisotopes and the Age of the Earth (RATE) project. It has been written to equip the layperson to defend scientific six-day creation and refute modern dating techniques.

Thousands...Not Billions Study Guide

2006. Institute for Creation Research, 64 pages.
Regular price - \$10.00, Member price - \$8.50.

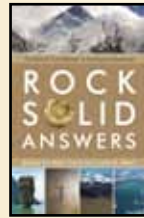

A companion study guide to the popular book *Thousands...Not Billions*. It includes chapter outlines, chapter summaries, objectives, implications, and review questions.

Rock Solid Answers

Mike Oard & John Reed (editors)

2009. Master Books and Creation Research Society Books, 272 pages.
Regular price - \$20.00, Member price - \$17.00.

This book provides compelling and comprehensive answers to 14 popular questions or challenges to Flood geology. Questions centering on the earth's geology remain some of the biggest stumbling blocks for people trying to reconcile biblical history with popular ideas of modern science. It contains chapters by nine leading creation experts, covering topics such as radiometric dating, caves, soils, paleosols, varves, ancient ice ages, dinosaur tracks, whether the water had to cover Mount Everest, fossil distribution and preservation, and more. (semi-technical)

The Genesis Flood

John C. Whitcomb & Henry M. Morris

1961. Institute for Creation Research, 518 pages.
Regular price - \$14.00, Member price - \$12.00.

The classic book on geological and Biblical evidence for a global Genesis Flood. (semi-technical)

Flood by Design:

Receding Water Shapes the Earth's Surface

Mike Oard

2008. Master Books, 130 pages.
Regular price - \$15.00, Member price - \$12.75.

There are features on the earth's surface that science cannot explain with slow changes over millions of years. However, these features can readily be explained by the runoff of Flood water from the surface of the continents as they were uplifted. This evidence from the geological subfield of geomorphology presents a whole class of evidence that the Genesis Flood was real.

Geology by Design

Carl Froede, Jr.

2007. Master Books, 144 pages.
Regular price - \$15.00, Member price - \$12.00.

Peeling back the layers of Biblical geology. From the acclaimed Creation Research Society, this technical study of rock strata, and the fossils found therein, gives a solidly scientific rationale for believing in young earth. This advanced guide is ideal for upper-level homeschool students, college students, or anyone wishing to explore this fascinating subject in-depth and includes questions for review at the end of each chapter. Froede defines a credible geological time-line and describes the creatures found in rock sediments around the world.

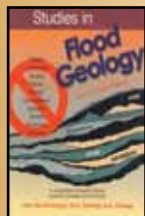

The Mythology of Modern Dating Methods

John Woodmorappe

1999. Institute for Creation Research, 118 pages.
Regular price - \$8.50, Member price - \$8.00.

Based on 500 articles from specialists in the field of radiometric dating, it provides a devastating critique of radiometric dating methods. (semi-technical)

Studies in Flood Geology:

A Compilation of Research Studies Supporting Creation and the Flood (second edition)

John Woodmorappe

1999. Institute for Creation Research, 200 pages.

Regular price - \$10.00, Member price - \$8.00.

An anthology of the author's research articles in Flood geology. (semi-technical)

Ancient Ice Ages or Gigantic Submarine Landslides?

Michael J. Oard

1997. CRS Monograph Series No. 6, Creation Research Society, 130 pages.

Regular price - \$15.00, Member price - \$10.00.

The hypothesis of pre-Pleistocene ice ages is challenged by a Flood mechanism. (semi-technical)

Plate Tectonics: A Different View

John K. Reed (editor)

2000. CRS Monograph Series No. 10, Creation Research Society, 191 pages.
Regular price - \$15.00, Member price - \$10.00.

The authors provide reasons for questioning plate tectonics and whether it should be assumed in Flood models. (semi-technical)

EARTH SCIENCE/DATING METHODS

Earth's Catastrophic Past: Geology, Creation & the Flood

Andrew A. Snelling

2009. Institute for Creation Research, 1102 pages (hard bound and two volumes).
Regular price - \$60.00, Member price - \$50.00.

This is a comprehensive book documenting copious evidence for Creation and the Flood from the point of view of catastrophic plate tectonics as the mechanism of the Flood. It summarizes a huge amount of information from the creationist technical literature and answers challenges to biblical earth history from conventional geology. (semi-technical)

An Ice Age Caused by the Genesis Flood

Michael J. Oard

1990. Institute for Creation Research, 243 pages.
Regular price - \$20.00, Member price - \$17.00.

This is the definitive work on the origin of a rapid ice age caused by the climatic upheaval of the Genesis Flood. It includes the time required for an ice age, the thickness of the ice sheets, and the number of ice ages. (semi-technical)

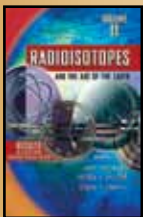

Radioisotopes and the Age of the Earth:

A Young-Earth Creationist Research Initiative

Larry Vardiman, Andrew A. Snelling, & Eugene F. Chaffin (editors)

2000. Institute for Creation Research & Creation Research Society, 675 pages (hard cover).
Regular price - \$35.00, Member price - \$25.00.

The first of two technical books on a large creationist research project examining the basis for long ages in radiometric dating methods. (semi-technical)

Radioisotopes and the Age of the Earth, Volume II

Larry Vardiman, Andrew Snelling, & Eugene Chaffin (editors)

2005. Institute for Creation Research & Creation Research Society, 876 pages (hard cover).
Regular price - \$40.00, Member price - \$30.00.

Radioisotopes and the Age of the Earth: Results of a Young-Earth Creationist Research Initiative addresses the issues raised by the first RATE technical book in 2000. The RATE team dared to ask tough questions and has discovered that radioactive dating methods and their results are not thorough, consistent, or reliable. (semi-technical)

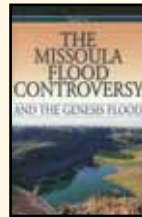

The Geologic Column: Perspectives within Diluvial Geology

John K. Reed & Michael J. Oard (editors)

2006. Creation Research Society, 157 pages.
Regular prices - \$15.00, Member price - \$11.00.

Many people wonder how the evolutionary/uniformitarian geologic column fits into Biblical flood geology. This book has brought several different perspectives together to better define the real differences within flood geology models, and to identify areas of future research leading to potential resolutions. (semi-technical)

Price Reduced

The Missoula Flood Controversy and the Genesis Flood

Michael J. Oard

2004. CRS Monograph Series No. 13, Creation Research Society, 133 pages.
Regular price - \$18.00, Member price - \$14.00.

This book describes not only the spectacular evidence for one of the world's most catastrophic floods, and also the 40 years of contention of its proper interpretation. Ironically, the overwhelming evidence for the Lake Missoula flood was initially rejected because it was too Biblical. Therefore, it is not expected that mainstream geologists will likely see evidence for the largest flood ever—the Genesis Flood. (semi-technical)

The Frozen Record: Examining the Ice Core History of the Greenland and Antarctic Ice Sheets

Michael Oard

2005. Institute for Creation Research, 199 pages.
Regular price - \$20.00, Member price - \$17.00.

This monograph examines the deep Greenland and Antarctic ice cores that are claimed to have been dated as many hundreds of thousands of years. An alternative explanation of the ice cores within a creation/flood model is provided. (semi-technical)

DVD's

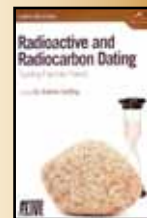

Radioactive and Radiocarbon Dating: Turning Foe into Friend

Andrew Snelling

2009. Answers in Genesis, 62 min. DVD.

Regular price - \$13.00, Member price - \$11.00.

What evidence would we look for if the global Flood, as described in Genesis 6 to 8, is really true? Andrew Snelling, PhD geology, explains that many of the physical features of the earth are exactly what we would expect. He details several examples of fossils, erosion, and the nature of different strata. He concludes that there is very strong evidence for a global flood.

The Great Global Warming Debate

Michael Oard

2011. Creation Ministries International, 43 min. DVD.

Regular price - \$13.00, Members price - \$11.00.

Many people are proclaiming that man is responsible for global warming, which is at most only 1.2° F since 1880. Atmospheric scientists Michael Oard examines the observed data and concludes that natural process are responsible for more than half the global warming. Alarmism is unnecessary, and we have time for unbiased research.

Dragons or Dinosaurs? Creation Or Evolution

Darek Isaacs

2010. Bridge-Logos, 220 pages.

Book only

Regular price - \$15.00, Members price - \$13.00.

90 min. DVD from cloud Ten,

Regular price - \$19.00, Members price - \$17.50.

Book and DVD combination,

Regular price - \$25.00, Members price \$23.50.

Dragon legends are found in nearly every culture around the globe. They have been thought to be myths. Yet, mysteriously, these dragons sound a lot like the dinosaurs. Could they be one and the same? Surprisingly enough, the answer to this question is a powerful truth that confirms biblical authority and greatly weakens the theory of evolution. This book brings forth much evidence that is sure to fascinate the reader.

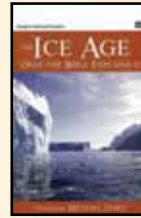

The Message of the Grand Canyon

Tom Vail

2009. Arizona Origins Science Association, 54 min. DVD.

Regular price - \$13.00, Member price - \$11.00.

In this video, noted creationist and river rafter, Tom Vail, offers his insights and experience on the geology of Grand Canyon. He discusses some of the canyon's unusual formations, such as dramatic bends in multiple layers of rock. Mr. Vail explains how he thinks the canyon provides excellent support of a global flood and a young earth. Presented at a layman's level, this video offers a very informative creationist perspective of Grand Canyon; its age, formation, and biblical significance.

The Ice Age:

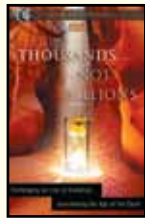

Only the Bible Explains It

Michael Oard

2006. Answers in Genesis, 63 min. DVD.

Regular Price - \$13.00, Member price - \$11.00.

In this enlightening DVD, Michael Oard examines the physical evidence of the Ice Age, scrutinizes secular theories, and shows how only the Bible can explain it. Many related issues are addressed, such as the extinction of the woolly mammoths in Siberia, the supposedly old ages in ice cores, the ice age mass extinctions, and the challenge of ice ages claimed to have occurred hundreds of millions to billions of years ago.

Thousands...Not Billions

RATE Group

2005. Institute for Creation Research, 48 min. DVD.

Regular price - \$20.00, Member price - \$17.00.

See and hear the radioisotopic evidence for a young earth! Loaded with detailed animations, illustrations, and photos, this documentary summarizes the findings and amazing discoveries of the Radioisotopes and the Age of the Earth (RATE) Project. For advanced high school ages and up.

Mount St. Helens:

Explosive Evidence for Catastrophe

Institute for Creation Research

58 min. DVD.

Regular price - \$20.00, Member price - \$17.00.

The Mount St. Helens eruption was the greatest geologic event of the 20th century. Dr. Steve Austin has meticulously studied the geologic events around Mount St. Helens and shows how eruption and post-eruption events demonstrate that catastrophes can rapidly do what evolutionary geologists have usually assumed took millions of years.

RATE Premier Conference:

Thousands...Not Billions

The RATE Group

2006. Institute for Creation Research, 203 min. DVD.

Regular price - \$30.00, Member price - \$25.00.

Several years ago the Creation Research Society and the Institute for Creation Research launched a major research initiative to study radioisotopes and the age of the earth (RATE). This DVD provides a public presentation of their results.

Millions of Years:

Where Did the Idea Come From?

Terry Mortenson

2005. Answers in Genesis, 65 min. DVD.

Regular price - \$13.00, Member price - \$11.00.

It all started in the 1700's when some scholars arbitrarily believed that the earth was old. Dr. Mortenson shows how this belief about the age of the earth led to the rejection of the Flood and to the idea of evolution.

Rock Strata, Fossils, and the Flood

Andrew Snelling

2007. Answers in Genesis, 36 min. DVD.

Regular price - \$13.00, Member price - \$11.00.

What evidence would we look for if the global Flood, as described in Genesis 6 to 8, is really true? Andrew Snelling, PhD geology, explains that the many of the physical features of the earth are exactly what we would expect. He details many examples of fossils, erosion, and the nature of different strata. He concludes that there is very strong evidence for a global flood.

GENERAL

The Extinction of Evolution

Darek Issacs

2008. Watchmen 33, 176 pages.
Regular price - \$13.00, Members price - \$11.00.

This book cleverly explores what the world would be like if the theory of evolution were actually true and all behavior is a product of evolution. It is written from the point of view of an ardent evolutionist expounding evolutionary principles for life, and includes abundant quotes from Darwin, Hitler, and E.O. Wilson.

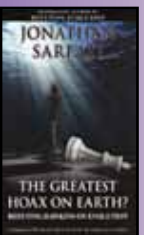

Some Call it Science: The Religion of Evolution

Henry Morris

2006. Institute for Creation Research, 48 pages.
Regular price - \$6.00, Member price - \$4.50.

This is Dr. Henry Morris' last book, written just before his death. He provides a quick and easy-to-read summary of the basic evidence against evolution and for creation. He concludes that the more we know, the more we find that evolution has been repeatedly debunked.

The Greatest Hoax on Earth? Refuting Dawkins on Evolution: A Response to the Greatest Show on Earth: The Evidence for Evolution

Jonathan Sarfati

2010. Christian Book Publishers, 336 pages.
Regular price - \$15.00, Member price - \$13.00.

As an ardent advocate of secular humanism (and its essential reliance on evolutionism), Richard Dawkins claims his book, *The Greatest Show on Earth: The Evidence for Evolution* is a powerful presentation of all the evidence for evolution. He even promotes his book as an unanswerable demolition of creation. However, Dr. Sarfati offers very strong and well researched answers to Dawkins' arguments.

Censored Science:

The Suppressed Evidence

Bruce Malone

2009. Search for the Truth Publications, 111 pages.
Regular price - \$15.00, Member price - \$13.00.

This book examines the information that is all too often censored, suppressed, or ignored in our culture because it challenges naturalism. Filled with beautiful, full color photographs, the book explores 50 evidences in the fields of biology, geology, and cosmology. It provides evidence for a Creator and a worldwide Flood.

Persuaded by the Evidence:

True Stories of Faith, Science, and the Power of a Creator

Doug Sharp and Jerry Bergman

2008. Master Books, 288 pages.
Regular price - \$14.00, Member price - \$12.00.

A unique and interesting collection of true stories from Christians sharing their personal journey to find the Biblical truth in Genesis 1-11. It tells how each began at a different point in their life to question the supposed fact of evolution. In their search for answers, you will be able to identify with them and understand what shaped their faith and changed their lives.

Evolution Exposed: Earth Science

Roger Patterson

2008. Answers in Genesis, 328 pages.
Regular price - \$16.00, Member price - \$13.00.

Evolution is not limited to biology class. It also saturates earth science. This book points out where evolution is taught in three popular earth science textbooks. It provides alternative answers for classroom discussion, term papers, interacting with friends and teachers, and helps you stand firm when challenged.

Evolution Exposed: Expanded Version

Roger Patterson

2006. Answers in Genesis, 301 pages.
Regular price - \$16.00, Member price - \$13.00.

Want to equip your children (and yourself) to meet major evolutionary challenges in the schools and society? This book will help. Analyzing three recent high school biology textbooks, this book not only debunks the propaganda, but also provides reasonable answers from the creation-flood model. It references numerous web articles to aid in a more in-depth analysis of evolutionary claims.

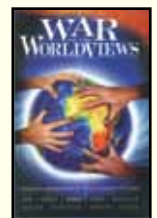

War of the Worldviews:

Powerful Answers for an "Evolutionized" Culture

Ken Ham, Bodie Hodge, Carl Kerby, Jason Lisle, Stacia McKeever, David Menton, Terry Mortenson, Georgia Purdom, & Mike Riddle

2005. Answers in Genesis, 174 pages.
Regular price - \$12.00, Member price - \$10.00.

Nine authors from Answers in Genesis join together to show how an "evolutionized" culture is dominating our schools, courts, and homes. The minds of Christians are being taken captive by an evolutionary philosophy, resulting in a deficient gospel and subjective morality. In this powerful book, you will find ammunition for the war: answers to some of the most common arguments for the evolution hypothesis, analyses of Christian-compromise positions, and a call for a return to true Biblical authority.

Science and the Bible:

30 Scientific Demonstrations Illustrating Scriptural Truths

Donald B. DeYoung

Volume 1, 1994. Baker Books, 110 pages.
Regular price - \$12.00, Member price - \$11.00.
Volume 2, 1997. Baker Books, 103 pages.
Regular price - \$11.00, Member price - \$9.50.
Volume 3, 2002. Baker Books, 123 pages.
Regular price - \$11.00, Member price - \$9.50.

A list of materials and careful instructions are provided for each project to demonstrate both scientific and scriptural principles.

War of the Worldviews: Audiobook

2005. Answers in Genesis, 216 min.
Regular price - \$15.00, Member price - \$13.00.

An unabridged audio version of the book by the same title, read by the authors of the book.

Science and Creation:

An Introduction to Some Tough Issues

Wayne Frair

2002. Creation Research Society, 80 pages.
Regular price - \$6.00,
Member price - \$4.20.

Presents some vital issues in science, theology, faith, and creation. An excellent introductory book to the issues and ideas of creation.

The Answers Book Special all THREE books for \$40.00

The New Answers Book 1, 2, or 3

Ken Ham (general editor)

2006. Master Books, 378 pages. - 2008. Master Books, 374 pages. - 2009. Master Books, 381 pages.

Regular price - \$15.00, Member price - \$12.50.

Evolution...intelligent design...creation...or a little of all three? Timely and scientifically solid, this book offers concise answers from leading creationist Ken Ham and scientists such as Dr. David Menton, Dr. Georgia Purdom, Dr. Andrew Snelling, Dr. Jason Lisle, and many more.

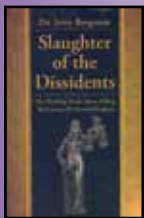

Already Compromised

Ken Ham & Greg Hall

2011. Master Books, 236 pages
Regular price - \$14.00, Members price - \$12.00

Finally, a book that statistically documents the state of Christian colleges in regard to the origins issue, as well as biblical inspiration, inerrancy, and infallibility. The statistics are taken from the interviews of 312 university presidents, academic deans/vice presidents, heads of the science department, and heads of the theology/religion department. The news is not all bad, but it is not good. Information obtained from these interviews will also help in choosing colleges to attend and the reader can learn what questions to ask to ensure your children will be instructed with a complete biblical perspective. This book will also help you determine if your college of choice actually builds student's faith instead of destroying it.

The Slaughter of the Dissidents

Jerry Bergman

2008. Leafcutter Press, 488 pages.
Regular price - \$24.00, Members price - \$20.00.

Dr. Jerry Bergman provides detailed and extensive exposure of the systematic assault on creationists and other Darwin skeptics who dare challenge evolution's strangle-hold on science. Dr. Bergman explores the details of many cases of teachers and scientists that have challenged evolution indoctrination, and has frequently found an intentional "witch hunt" by pro-evolution advocates.

Noah's Ark: A Feasibility Study

John Woodmorappe

2009. Institute for Creation Research, 298 pages. Fourth Edition
Regular price - \$22.00, Member price - \$18.50.

This remarkable book is the most complete analysis ever published regarding the gathering of animals to the Ark, provisions for their care and feeding, and the subsequent dispersion. The author has devoted seven years to this scholarly, systematic answer to virtually all the anti-Ark arguments, alleged difficulties with the biblical account, and other relevant questions. Nothing else like this has ever written before - an unanswerable vindication of Genesis. (semi-technical)

Already Gone:

Why Your Kids Will Quit Church and What You Can Do to Stop It

Ken Ham & Britt Beemer

2009. Master Books, 189 pages.
Regular price - \$11.00, Member price - \$9.00.

Two-thirds of young people now attending evangelical churches will be gone after they leave home, because they have already left in their hearts. This shocking result comes from an in-depth poll of 1,000 young people aged 20 to 28 who have left the church. This book delves into why they have left. Although there are number of reasons, a high proportion of these people left because of the influence of evolution and the belief in an old earth, which they learned during their grade school and high school years. *Already Gone* can help us understand this trend and provide some answers to preventing this problem with future generations.

Ultimate Proof

Jason Lisle

2009. Master Books, 254 pages.
Regular price - \$14.00, Member price - \$12.00.

This book defends the Christian faith by offering, what Dr. Lisle argues, is the ultimate proof. Emphasizing defense of the Genesis account, he applies principles of logic to illustrate clear and significant logical fallacies of both evolution and atheism. Dr. Lisle also addresses the logical inconsistency of compromised positions, such as theistic evolution. This book is not another application of scientific data, but rather shows how the Bible defends itself. Dr. Lisle's work is an excellent resource for pastors, students, and all those desiring to defend their faith.

Discerning Truth

Jason Lisle

2010. Master Books, 135 pages.
Regular price - \$11.00, Member price - \$9.00.

Every day Christians are faced with an increasing onslaught of criticism from evolutionists for their belief in God and His glorious Creations. What do you say when your faith is challenged by those claiming to speak in the name of science or reason? Dr. Lisle believes that creationists need to be able to recognize and refute evolutionist arguments, and to do so in a way that both honors God and lines up with the truth of His Word. The role of logic, the study of correct reasoning, is becoming a vanishing skill in our society. Yet it is a vital tool in assisting Christians in assessing the weaknesses in evolutionary thought. Here is a clear and concise guide for every believer in defending your faith in the face of adversity.

Discovery of Design:

Searching Out the Creator's Secrets

Don B. DeYoung & Derrik Hobbs

2009. Master Books, 234 pages.
Regular price - \$13.00, Member price - \$11.00.

Discover how ideas from nature are leading the way to new inventions and solutions to technical problems. Dozens of examples are presented from the fields of medicine, nanotechnology, surveillance, animals, and the human body. Fully illustrated.

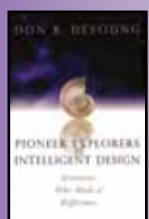

Repairing the Breach:
Explaining the Systematic Deception Behind the War of Worldviews, and How Christendom Can Turn the Tide

John and Stephen Wynne
2008. Restoring Truth Ministries,
796 pages (hard cover).
Regular price - \$25.00,
Members price - \$23.00.

This book is packed with information on the worldview issue waged by evolutionary ideas that permeate our culture. The book shows that evolution has little or no factual basis, but yet has spread its tentacles in many areas of society, such as eugenics, Nazism, abortion, population control, public education, and the new age movement. Evolution has also infected the church through liberalism and the higher critics. The book ends with suggestions on what we can do about it.

Pioneer Explorers of Intelligent Design:
Scientists Who Made a Difference

Donald B. DeYoung
2006. BMH Books, 101 pages.
Regular price - \$13.00, Member price - \$11.00.

This book lists 144 major contributors to scientific discovery during the past 500 years, most of whom believed in the God of creation and the Biblical record. This list is in addition to those scientists who have been featured in other creationist books. These short biographies show that the entire foundation of modern science and technology was laid down by men and women of faith. It also illustrates that a Biblical foundation actually encourages scientific inquiry and understanding.

The Genesis Factor: Myths and Realities
Ron J. Bigalke, Jr. (editor)

2008. Master Books, 260 pages.
Regular price - \$14.00, Member price - \$11.75.

The book of Genesis is constantly under attack from many sources, but perhaps the most damaging attacks come from within the modern church. With leaders and influencers such as Hugh Ross advocating an old-earth view of the world, it's no wonder that people's confidence in the authority of God's Word has been shaken. In this ground-breaking book, leading voices in the creationist movement defend the first book of the Bible from compromise positions, using scientific and historical evidence. The reader can be assured of the accuracy of the Word from its very first verse—and of the validity of this Biblical worldview.

Unwrapping the Pharaohs:
How Egyptian Archaeology Confirms the Biblical Timeline

John Ashton & David Down
2006. Master Books, 221 pages (hard cover).
Regular price - \$35.00, Member price - \$28.00.

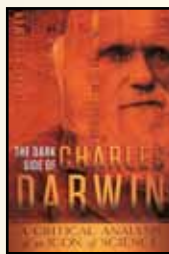

This full color illustrated book (and accompanying DVD) on Egyptian history, traces all the dynasties, giving fascinating facts about Egyptian civilization and life. The authors make a strong case that the standard chronology of ancient Egypt should be compressed. They show that the Old Testament accounts of Joseph, Moses, and the Exodus all fit into an earlier Egyptian dynasty than usually suggested.

Tornado in a Junkyard:
The Relentless Myth of Darwinism

James Perloff
1999. Refuge Books, 321 pages.
Regular price - \$17.00, Member price - \$14.50.

An easy-to-read summary of the creation/evolution controversy from a former evolutionist.

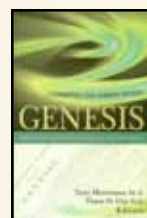

The Dark Side of Charles Darwin:
A Critical Analysis of an Icon of Science

Jerry Bergman
2011. Master Books, 270 pages.
Regular price - \$14.00, Members price - \$12.00.

Not many people know that their popular iconic hero, Charles Darwin, had a dark side. He was not only physically sick most of his adult life, but he may have also been mentally sick, which may have been connected to his evolutionary thoughts and writings. Dr. Bergman takes us behind the scenes to show us the man whose ethics were questionable, was racist in his writings, manipulative in his presenting his evidence, and was committed to eliminating design from the world.

Coming to Grips with Genesis:
Biblical Authority and the Age of the Earth

Terry Mortenson, (compilation editor)
2008. Master Books, 488 pages.
Regular price - \$17.00, Member price - \$14.50.

Fourteen different scholars address key topics related to the age of the earth, which is the crucial issue of debate in the church regarding origins (i.e., most old-earth proponents, like young-earth creationists, reject biological evolution). These scholars bring to bear rigorous scholarly Biblical and theological arguments in favor of a young earth,

Darwin's Plantation: Evolution's Racist Roots
Ken Ham and A. Charles Ware

2007. Master Books, 192 pages.
Regular price - \$14.00, Member price - \$11.75.

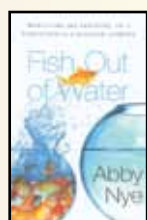

This fascinating book gives a thorough history of the effect of evolution on the history of the United States, including slavery and the civil rights movement. It goes beyond the borders of this country to show the global harvest of death and tragedy that stems from Darwin's controversial ideas. You will also learn what the Christian's view of race should be and what the Bible has to say about it in a compassionate and uniquely compelling perspective.

The Big Argument: Does God Exist?
John Ashton & Michael Westacott (editors)

2006. Master Books, 403 pages.
Regular price - \$15.00, Member price - \$12.75.

Twenty-four scholars from a variety of disciplines explore how science, archaeology, Biblical scholarship, history, and philosophy all indicate that God exists. Many young-earth creationists are included in this group and present arguments from astronomy, information theory, biological complexity and design, the origin of consciousness, and geology. When the scientific evidence is examined alongside other fields of study, such as fulfilled prophecy and historical evidence for the resurrection, the strong case for God's existence is compelling.

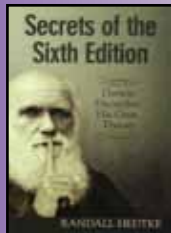

Fish Out of Water

Abby Nye
2005. Masters Books, 233 pages.
Regular price - \$13.00, Member price - \$10.00.

This book fills a need in helping to prepare young students for the university experience. With chapter introductions written by several practicing scientists and college professors (many who are members of CRS), this book provides insights about life on a university campus. The author, Abby Nye, details the loss of academic and religious freedom on our campuses. Also included strategies for engaging and responding to peers, professors, and administrative pressures, and includes tips for maintaining a strong faith and honoring the Lord in an academic career.

Secrets of the Sixth Edition:

Darwin Discredits His Own Theory

Randall Hedtke

2010. Master Books, 158 pages.

Regular price - \$12.00, Members price - \$9.50.

Darwin's book, *On the Origin of Species*, went through six editions between 1859 and 1872. During that time, the book changed considerably from the first to the sixth edition. Darwin changed his mind on a number of issues and by the time he finished the sixth edition, he actually gave up on natural selection, itself, as the cause of evolution and reverted back to a form of Lamarckianism. Not many evolutionists know about this. Mr. Hedtke also shows the flaws in Darwin's assumptions and research and the doubts that Darwin expressed about his own speculations and suppositions.

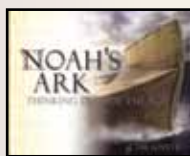

Noah's Ark: Thinking Outside the Box

Tim Lovett

2008. Master Books, 80 pages (hard cover).

Regular price - \$16.00, Member price - \$12.00.

This ground-breaking book asks you to "think outside the box" as you consider new research by naval expert and mechanical engineer Tim Lovett. Presenting an innovative new study on the Ark, Lovett builds on traditional research of this historic event using the latest techniques in computer modeling.

The Coming Wrath

John K. Reed

2005. Mabbul Publishing, 380 pages.

Regular price - \$12.00, Member price - \$10.00.

The Coming Wrath is a well-written epic tale, transporting you back in time to "the days of Noah" before the Flood. Faithful to Genesis, this novel recounts amazing adventures in a world long lost but in a manner remarkably striking of our own "last days."

Mabbul

John K. Reed

2007. Mabbul Publishing, 304 pages.

Regular price - \$8.00, Member price - \$6.00.

In this sequel to *The Coming Wrath* (an epic story set around the Genesis Flood) *Mabbul* continues the gripping story with the beginning of the ark's voyage. It traces the journey from the terrifying onset of a world-destroying cataclysm to the equally terrifying shipwreck in the mountains of Ararat, where the lone survivors of a lost world must endure another trial—months of imprisonment aboard the ark, waiting for their opportunity to resettle the new Earth.

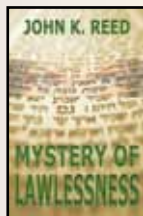

Mystery of Lawlessness

John Reed

2010. Reasonable Hope Ministry, 565 pages.

Regular price \$10.00, Member price \$8.00.

This is the third and last book in Dr. Reed's trilogy about the Genesis Flood. His previous books of the trilogy are *The Coming Wrath* and *Mabbul*. This third book focuses on the period about 100 years after the Flood. In this epic tale, Dr. Reed delivers not only adventure, but explores the depths of the human heart and its relationship with his creator. From these struggles in the ancient world, two mysteries are interwoven: the mystery of lawlessness and the mystery of redemption.

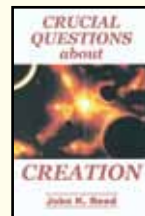

Crucial Questions about Creation

John K. Reed

2005. Mabbul Publishing, 119 pages.

Regular price - \$10.00, Member price - \$8.50.

Many Christians are confused about the often-strident debates within their churches over how and when God created. While relevant, those questions are best answered when they are understood as secondary to the more crucial question, "Why did God create?" This book will help Christians, scientists, and laymen find new clarity to the origins issue.

The Annals of the World

James Ussher, new English translation

by Larry & Marion Pierce

2003. Master Books, 960 pages (hard cover).

Regular price - \$65.00, Member price - \$45.00.

This book is the first major English revision since 1658 of Archbishop Ussher's history of the world, from creation to 70 A.D., the fall of Jerusalem. This magnum opus of historical information not only focuses on the events of the Bible, but also includes events from secular sources, many of which have been lost since Ussher wrote.

Museum Guide:

A Bible-Based Handbook to Natural History Museums

Stacia McKeever (editor)

2007. Answers in Genesis, 221 pages.

Regular price - \$20.00, Members price - \$17.00.

If you are concerned about the propaganda presented in natural history museums, this beautifully illustrated and full color book is for you. The book provides the true history behind more than 100 common museum exhibits. Excellent for school field trips to your favorite museum.

That Their Words May Be Used Against Them

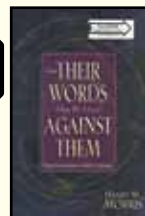

Henry M. Morris

1997. Institute for Creation Research, 487 pages

(hard cover).

Regular price - \$19.00, Member price - \$15.00.

Contains a huge number of quotations from evolutionists, bringing into question various aspects of evolutionary theory. CD included.

Refuting Evolution: A Response to the National Academy of Science's Teaching about Evolution and the Nature of Science

Jonathan Sarfati

1999. Master Books, 143 pages.

Regular price - \$8.00, Member price - \$6.50.

A powerful critique of the top evolutionists' best supposed arguments against creation and for evolution.

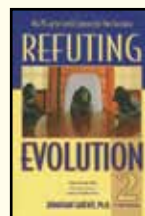

Refuting Evolution 2: What PBS and the Scientific Community Don't Want You to Know

Jonathan Sarfati with Mike Matthews

2002. Master Books, 235 pages.

Regular price - \$10.50, Member price - \$9.00.

A second powerful critique of the latest supposed arguments against creation and for evolution that were presented in the PBS series on evolution and by Scientific American.

What the Schools are Teaching: How to Spot Lies in Textbooks

Charles Jackson
2011. Creation Ministries International, 42 min. DVD.
Regular price - \$13.00, Members price - \$11.00.

Did you know that many school textbooks contain outright falsehoods? In his dynamic style, Dr. Jackson will help you easily identify many of these, so that you can gain understanding of the worldview issue, to help families, answer our church youth, and witness to the unbelieving world.

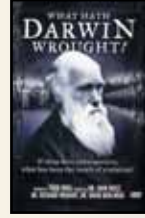

Close Encounters of the 'Fourth Kind': A New Theory about Alleged Alien Abductions

Gary Bates
2011. Creation Ministries International, 59 min. DVD.
Regular price - \$13.00, Members price - \$11.00.

UFO researcher Gary Bates has counseled numerous people who have claimed interaction with alleged alien beings. How can we explain these experiences, which can be real, but are not extraterrestrial? Gary's theory is ground breaking, yet biblical.

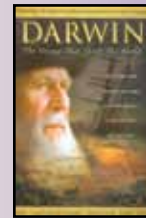

What Hath Darwin Wrought?

Hosted by **Todd Friel**
2010. Burning Bush Communications, 79 min.
(with almost 2 hours of bonus features) DVD.

Regular price - \$20.00, Member price - \$17.00.

There have always been bad-men, but the 20th century was the bloodiest century in human history. Why? Despite the claims of famous atheists, the likely reason was the influence of Darwinian evolution. Todd Friel interviews experts Drs. John West, Richard Weikart, and David Berlinski to show that Darwinism is at the root of eugenics, Nazi Germany, and abortion, the murders of millions of innocent people.

Darwin: The Voyage that Shook the World

Creation Ministries International
2009. Fathom Media, 54 min. DVD
Regular price - \$23.00, Member price - \$20.00.

This is an excellent documentary of Darwin's five-year epic voyage of discovery on the Beagle. Through interviews of both evolutionists and creationists, the video explores how Darwin's thinking begins to accommodate the ideas of uniformitarian geology and then into biological evolution. The Voyage features dramatic recreations of the events and stunning nature cinematography interwoven within the documentary.

Astronomy and the Bible: The Heavens Declare the Glory of God

Mike Riddle
2004. 72 min. DVD.
Regular price - \$13.00, Member price - \$11.00.

The evolutionary view and the creation view of the origin of the universe are contrasted. Evidence for a young universe, and evidence against the currently popular Big Bang model are discussed. Mr. Riddle also challenges the evolutionary claims of star formation.

The Fossil Record: Fossils — Scientific Evidence for the Bible

Mike Riddle
2004. 60 min. DVD.
Regular price - \$13.00, Member price - \$11.00.

Mr. Riddle presents the history of the world from the evolution and creation models, then examines the fossil record and explains why the data fits the creation model much better than the evolution model.

Creation/Evolution: Does It Matter What We Believe?

Mike Riddle
2004. 64 min. DVD.
Regular price - \$13.00, Member price - \$11.00.

Mr. Riddle defines the two models of origins and then proceeds to show the seven Biblical reasons why creation and evolution cannot be combined. He concludes that, while attempting to combine them is a very popular concept in today's society, it significantly damages the authority of the Bible in people's lives.

The Origin of Humans: Neandertals, Australopithecines and Other Famous Creatures

Mike Riddle
2004. 68 min. DVD.
Regular price - \$13.00, Member price - \$11.00.

Making complex material understandable to laymen, Mr. Riddle investigates the history of such fossil claims as Java Man, Piltdown Man, Nebraska Man, and "Lucy." He concludes that neither the fossil nor biological evidence supports the claims of evolution.

Dating Fossils and Rocks: Scientific Evidence and the Age of the Earth

Mike Riddle
2004. 61 min. DVD.
Regular price - \$13.00, Member price - \$11.00.

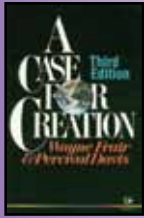

Mr. Riddle gives an easily understood presentation on geologic dating methods, and the assumptions they involve. First discussing carbon-14, he describes how the method can be understood to demonstrate a young earth. He continues his presentation by discussing other radiometric methods, and shows how the calculations of millions of years is wrong.

The Origin of Life: Scientific Evidence that Demands a Creator God

Mike Riddle
2004. 63 min. DVD.
Regular price - \$13.00, Member price - \$11.00.

Continuing his popular lecture series, Mr. Riddle focuses on the Miller/Urey experiments, giving details and facts not usually found in textbooks. During the past 50 years, scientific understanding of the cell has increased enormously, and cells can no longer be considered simple or unsophisticated. Mr. Riddle argues that such sophistication, at the cellular level, is beyond the ability of evolution to explain.

A Case for Creation
(third edition)

Wayne Frair & Percival Davis

1983. ACE Press, 155 pages.
Regular price - \$9.00, Member price - \$ 8.50.

Concise treatment of comparative anatomy, embryology, biochemistry, geology, and genetics as an excellent introduction to the creation/evolution controversy.

A Hollywood History of the Scopes Trial

David Menton

2004. Answers in Genesis,
74 min. DVD.
Regular price - \$13.00, Member price - \$11.00.

Distortions and inaccuracies abound in the influential play and movie *Inherit the Wind*, a Hollywood version of the Scopes Monkey Trial. In his humorous manner, Dr. David Menton dissects the movie, leaving one with the question of why was the movie so distorted?

The Evolution of Darwin: His Impact

Ken Ham

2009. Answers in Genesis, 50 min. DVD.
Regular price - \$15.00, Member price - \$13.00.

There is no doubt that Charles Darwin is one of the most influential scientists in history. But what kind of legacy did he leave? What impact have his ideas had on society, education, and Christianity? In this insightful DVD, Ken Ham examines these questions, showing how churches in Darwin's homeland have been converted into nightclubs and stores, all the while Darwin is enshrined in the name of streets, shopping malls, and buildings. Ham shows how the church buckled and failed to uphold the authority and clear teachings of God's Word, allowing Darwin's dangerous idea to corrupt the truth found in the Bible.

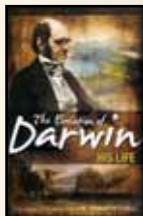

Creation vs. Evolution Debate

Audio CD

2006. Creation Research Society,
approx. 160 min.
Regular price - \$10.00, Member price - \$8.00.

Dr. Kevin Anderson (director of the Society's Van Andel Creation Research Center) squares off against local Arizona anti-creationist, Nigel Reynolds. The debate features initial arguments by both presenters followed by lively rebuttals, cross-examinations, and audience questions. This debate provides the listener an excellent opportunity to weigh the arguments of each side and seriously consider where the scientific evidence best fits.

The Evolution of Darwin: His Life

Tommy Mitchell

2009. Answers in Genesis, 50 min. DVD.
Regular price - \$15.00, Member price - \$13.00.

There are many questions about the life of Charles Darwin. Was he a Christian? Did his daughter's death turn him against God? Was he really a scientist? What type of education did he receive? What was the nature of his constant sickness? Dr. Tommy Mitchell traces Darwin's life and the events that influenced his beliefs.

Four Essential Questions of Life

Kevin Anderson

2008. 60 min. Audio CD.
(with Power Point Illustrations)
Regular price - \$9.00, Member price - \$7.00.

Dr. Anderson explores the four great questions of life; describing how the answers we give to each of these questions establishes our worldview and directly impacts how we live our life. He also discusses how evolution is ultimately a naturalistic attempt to remove God from the answers of these four questions. Dr. Anderson mixes scientific and biblical teaching to explain that only God can provide the answer to life's questions.

The Evolution of Darwin: His Science

David Menton

2009. Answers in Genesis, 50 min. DVD.
Regular price - \$15.00, Member price - \$13.00.

Darwin's science is analyzed by biologist Dr. David Menton. Menton examines such topics as the struggle for existence, natural selection, mutations, the geologic record, and homology. He examines the claims of evolution in light of evidence discovered since Darwin's time and finds this evidence wanting for proof of macroevolution.

The Myth of Junk DNA

Jonathan Wells

2011. Discovery Institute Press, 150 pages.

Regular price \$15.00, Members price \$13.00.

Dr. Jonathan Wells is no stranger to avid readers of creation/ID literature. Employing his usual wit and writing skill, Dr. Wells keenly tackles the issue of so-called junk DNA. He provides semi-technical, but very readable explanations of the genome and the claims evolutionists have made about junk DNA. Dr. Wells also takes evolutionists to task for their exaggerated assertions, and shows that many of their conclusions have a 'built-in' assumption of evolution. Without such an assumption, they cannot arrive at many of these conclusions. This book is a must read for anyone interested in genetics and the arguments frequently offered by evolutionists.

Intelligent Design: The Bridge Between Science & Theology

William A. Dembski

1999. InterVarsity

Press, 312 pages (hard cover). Regular price - \$16.00, Member price - \$13.00.

Provides the mathematical basis for inferring intelligent design, which is specified complexity, instead of chance and necessity.

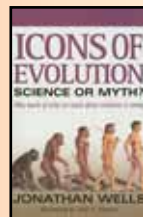

Debating Design from Darwin to DNA

William A. Dembski & Michael Ruse (editors)

2004. Cambridge University Press, 405 pages (hard cover). Regular price - \$40.00, Member price - \$35.00.

This is a unique book published by a well-known secular publishing house. Three groups of critics try to dismantle intelligent design (ID), but only rarely do they address the main arguments of ID. The ID advocates are given the chance to answer their critics in the latter part of the book. *Debating Design* provides insights into the current positions of the critics, but the reader should use discernment.

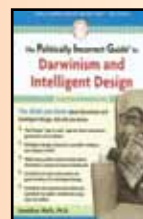

Icons of Evolution: Science or Myth?

Jonathan Wells

2002. Regnery Publishing, 338 pages. Regular price - \$19.00, Member price - \$16.00.

Exposes the weaknesses of ten popular "proofs" for evolution that appear frequently in textbooks. Dr. Wells demonstrates that these "proofs" are mistaken interpretations or simply fraudulent.

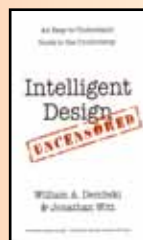

The Politically Incorrect Guide to Darwinism and Intelligent Design

Jonathan Wells

2006. Regnery Publishing, 283 pages. Regular price - \$20.00, Member price - \$17.00.

This anti-Darwinian and pro-intelligent design book may arguably be the most powerful and easily understood contemporary text favoring these positions. Yet the work is scholarly, having a respectable index and 47 pages of references and notes. Among the book's various topics, Dr. Wells shows that many public schools teach falsehoods about Darwinism. He has much to say about the current "politically correct" culture.

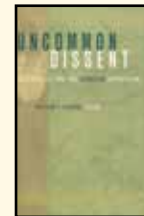

Intelligent Design Uncensored

William A. Dembski & Jonathan Witt

2010. InterVarsity Press, 175 pages. Regular price - \$15.00, Member price - \$12.00.

There is much misinformation in the culture about the intelligent design movement. This book explains what intelligent design is and is not. It summarizes what intelligent design is known for: the complexity of nature, irreducible complexity, the design test, the poison of materialism in science, refuting "bad design," and challenging evolution. But the book also updates their arguments and addresses popular questions by critics.

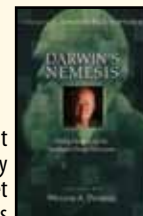

Uncommon Dissent: Intellectuals Who Find Darwinism Unconvincing

William A. Dembski (editor)

2004. ISI Books, 366 pages (hard cover). Regular price - \$28.00, Member price - \$25.00.

Essays by leading intelligent design intellectuals who find one or more aspects of Darwinism unpersuasive. Authors of the essays include Phillip Johnson, Marcel-Paul Schützenberger, Nancy Pearcey, Frank Tipler, Michael Behe, Michael Denton, Cornelius Hunter, and David Berlinski.

Darwin's Nemesis: Phillip Johnson and the Intelligent Design Movement

William A. Dembski (editor)

2006. Inter-Varsity Press, 357 pages. Regular price - \$23.00, Member price - \$20.00.

This book reviews and celebrates the life and thoughts of Phillip Johnson and the movement for which he has served as chief architect. There are eighteen essays by research scientists and philosophers who have known and worked with Johnson for more than a decade. There are even two chapters by friendly critics, Michael Ruse and David Berlinski. Stephen Meyer's Intelligent Design article, published in a secular journal, is also reprinted. The editor of the journal was severely castigated for allowing its publication, exposing the lie that anti-Darwinists are free to publish in the secular journals.

The Design Revolution: Answering the Toughest Questions About Intelligent Design

William A. Dembski

2004. InterVarsity Press, 334 pages. Regular price - \$20.00, Member price - \$17.00.

Criticism of intelligent design has been vociferous and often irrational. Dembski takes on the toughest challenges, categorizes them, and provides rational answers to 44 questions.

Metamorphosis

The Beauty and Design of Butterflies

2011. Illustra Media, 64 min. DVD.
Regular price - \$20.00, Member price - \$17.00.

Focusing on the design and sophistication of the butterfly, this video challenges evolutionary assumptions and claims about their origin (and consequently the origin of all living things). The viewer is entertained with high quality photography and visuals effects. This video argues that the process of metamorphosis is a serious challenge to any evolutionary scenario. What is more, detailed descriptions of the butterfly's migration patterns and physiology provide an amazing glimpse of God's creative skill and planning. Metamorphosis is an ideal video for any study of creation.

The Privileged Planet:

The Search for Purpose in the Universe

2004. Illustra Media, 60 min. DVD.
Regular price - \$20.00,
Member price - \$17.00.

The earth has been characterized as an insignificant planet by evolutionists as a pale blue dot lost in a cosmic sea. However, the information about the unique conditions and the many precise variables required for life makes the earth actually very special. This is the anthropic principle. Many of the scientists interviewed are former evolutionists who have come to the conclusion of intelligent design.

Expelled:

No Intelligence Allowed

Premise

2008. 90 min. DVD.
Regular price - \$19.00,
Member price - \$18.00.

Ben Stein hits a raw nerve among the evolutionist "thought police," as evidenced by their highly emotionally charged (but ultimately superficial) responses against him and this movie. This film is an excellent tool for revealing the true agenda of many evolutionary atheists.

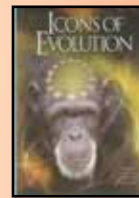

Where Does the Evidence Lead?

Exploring the Theory of Intelligent Design

2004. Illustra Media, 60 min. DVD.
Regular price - \$20.00,
Member price - \$17.00.

Icons of Evolution

2002. ColdWater Media,
51 min. DVD.
Regular price - \$25.00,
Member price - \$21.00.

Jonathan Wells and others expose ten of the most popular icons of evolution, showing that they are based on misinterpretation and possibly fraud. The problems encountered by a teacher who tried to introduce intelligent design into a high school science course are featured.

Unlocking the Mystery of Life

2002. Illustra Media, 65 min. DVD.
Regular price - \$20.00,
Member price - \$17.00.

The scientific case for a Creator is presented in clear, logical terms that are easily understood by a general audience. Viewers will be both intrigued and inspired as the awesome handiwork of the Creator is revealed. Several scientists explain how their training compelled them to realize that life could not be the product of chance or accident.

Dinosaur Challenges and Mysteries:

How the Genesis Flood Makes Sense out of Dinosaur Evidence Including Tracks, Eggs, Nests, and Scavenged Bones

Michael J. Oard

2011. Creation Book Publishers, 176 pages.
Regular price – \$19.00. Member price – \$17.00.

Dinosaur fossils present many mysteries for the evolutionary/uniformitarian assumption. The demise of all the dinosaurs that were not on the Ark can be readily explained by the global Genesis Flood. However, this full color book goes further and provides a reasonable explanation for some of the more difficult questions. These include how a global flood can explain the existence of billions of dinosaur tracks and millions of eggs, nests, and scavenged bonebeds.

The Fossil Record:

Unearthing Nature's History of Life

John D. Morris and Frank J. Sherwin

2010. Institute for Creation Research, 189 pages (hard cover).

Regular price - \$20.00, Member price - \$17.00.

This full-color book describes the fossil record, showing evidence for Creation and the Flood. It demonstrates the lack of transitional fossils between major groups and shows that many claimed transitions are

not. The authors describe the well-preserved nature of the fossil record, and that many fossils are found in fossil graveyards. Chapters also include unique fossils, such as living fossils, fossils in amber, and polystrate trees.

Evolution:

The Fossils Still Say No!

Duane T. Gish

1996. Institute for Creation Research, 391 pages.
Regular price - \$13.00, Member price - \$10.40.

Even though this book was published over 10 years ago, it still presents a well-researched critique of the supposed fossil and anthropological evidence for evolution. Dr. Gish documents the gaps and inconsistencies in the fossil record.

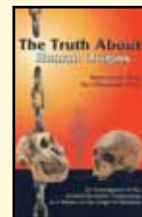

The Great Dinosaur Mystery Solved!

Ken Ham

1998. Master Books, 155 pages.

Regular price - \$11.00, Member price - \$9.25.

Answers the questions of when dinosaurs first came upon the earth and how they died.

The Truth About Human Origins:

An Investigation of the Creation/Evolution Controversy as it Relates to the Origin of Mankind

Brad Harrub & Bert Thompson

2003. Apologetics Press, 535 pages (hard cover).
Regular price - \$18.00, Member price - \$14.50.

Covers our alleged ancestors and also delves deeply into the unique aspects of mankind, such as language, communication, and human consciousness. (semi-technical)

Dinosaurs and Creation:

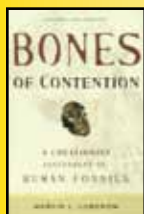

Questions and Answers

Donald B. DeYoung

2000. Baker Books, 141 pages.

Regular price - \$10.00, Member price - \$8.50.

A question-and-answer format supporting creationist explanations regarding the existence and extinction of dinosaurs.

Bones of Contention:

A Creationist Assessment of Human Fossils (Revised & Updated)

Marvin L. Lubenow

2004. Baker Books, 400 pages.

Regular price - \$25.00, Member price - \$21.50.

Lubenow provides updates of his previous material and also adds a significant amount of new material, such as the mtDNA data for Neanderthal Man, the Mitochondrial Eve debacle, and new data from the Radioisotopes and the Age of the Earth (RATE) project. (semi-technical)

Fossil Evidence of Creation:

The Footsteps of Leviathan

1996. American Portrait Films, 27 min. DVD.

Regular price - \$25.00,
Member price - \$21.00.

Presents evidence that the fossil record was laid down recently, during the Genesis Flood, with emphasis on dinosaurs.

Darwin's Dilemma

2009. Illustra Media, 70 min. DVD.
Regular price - \$20.00,
Member price - \$17.00.

Noted evolutionist Stephen Jay Gould once referred to the Cambrian fossil record as "the most remarkable and puzzling event in the history of life." Known as the Cambrian explosion, the sudden appearance of detailed and complex fossilized life forms in the Cambrian layer is a significant contradiction to the predictions of Darwinian evolution. Darwin understood the significance of these fossils, and was never able to reconcile his theory with their presence. This high quality and entertaining video explains that contemporary Darwinists have still not succeeded in reconciling these fossils with their model of evolutionary history.

TEXTBOOKS/EDUCATION

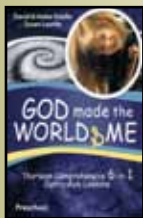

God Made the World & Me

David & Helen Haidle and Susan Laurita

2009, Master Books, 160 pages.

\$14.00.

This curriculum for preschoolers has thirteen lessons that combine fun and learning about God's creation. It explores light, darkness, water, land, plants, sun, moon, stars, sea creatures, birds, animals, and people. The book teaches through age-appropriate songs, experiments, and more to start building a solid foundation in Biblical faith.

Creation

David & Helen Haidle and Susan Laurita

2009, Master Books, 138 pages.

\$14.00.

This curriculum for first through fourth grade has thirteen fun-filled lessons that integrates creation with math, English, science, art, spelling, and physical activities. It explains scientific concepts like precipitation, evaporation, types of rocks, clouds, light, and more. It includes questions, games, art projects and encourages character development such as faith, trustworthiness, thankfulness, and diligence. Bonus activities for younger and older students are included. The curriculum can be used for homeschool, Sunday school, and VBS.

Evolution: The Grand Experiment Volume 2 Living Fossils

Carl Werner

2008. New Leaf Press in conjunction with Audio Visual Consultants Inc, 274 pages. (hard cover).

\$30.00.

Living fossils are a challenge for evolutionary theorists. Dr. Werner analyzes hundreds of living fossils with 700 breathtaking color photos from all over the world. He compares the fossil with the living representative and has interviewed evolutionary experts on the state of the evidence.

Evolution: The Grand Experiment Carl Werner

2007. New Leaf Press, 276 pages. (hard cover).

\$30.00.

Letting evidence speak for itself. Evolution has been dogma for so long, now many people consider it a foregone conclusion that life arose by random processes. *Evolution: The Grand Experiment* takes the unusual step of bringing together scientists on both sides of this cultural divide to present their findings.

THEOLOGY/BIBLICAL STUDIES

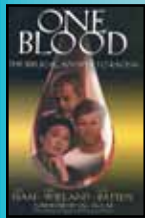

Creation, Fall, Restoration: A Biblical Theology of Creation

Andrew S. Kulikovsky

2009. Christian Focus Publications, 312 pages.
Regular price - \$20.00, Member price - \$18.00.

A thorough treatise on the first three chapters of Genesis, this book provides a history of the Church's various past and current interpretations of Genesis. The author also offers a careful analysis of the Hebrew text. Topics are framed in a thoughtful presentation of the scientific and theological implications of a biblical theology. Kulikovsky calls for Christians to trust God's Word from Creation to His plan for restoration.

One Blood

Ken Ham, Carl Wieland, &
Don Batten

1999. Master Books, 174 pages.
Regular price - \$11.00,
Member price - \$9.00.

Expanding upon Ken Ham's popular talks about human races and the Bible, this book addresses the racism issue head-on, dealing with such topics as the origin of nations, the "curse of Ham," and the impact of evolution on racism. The authors explain what "race" really means, and what the Bible says about race and racism.

Refuting Compromise: A Biblical and Scientific Refutation of "Progressive Creationism" (Billions of Years), As Popularized by Astronomer Hugh Ross

Jonathan Sarfati

2004. Master Books, 411 pages.
Regular price - \$14.00, Member price - \$11.75.

A very scholarly and important book from an author who not only understands the theological and scientific issues, but who also knows the original Hebrew. Chapters include a thorough analysis of the authority of Scripture, the order of creation, the days of creation, progressive creation, and day-age and gap theories.

Old-Earth Creationism on Trial

The Verdict Is In

Tim Chaffey and Jason Lisle

2008. Master Books, 207 pages.
Regular price - \$13.00,
Member price - \$11.00.

The authors put forth a comprehensive Biblical, theological, and scientific case against an old-earth interpretation of Scripture. Statistics show that the issue of the earth's age has caused a huge exodus of young people from the Church. It is imperative for us to understand this pivotal issue in the debate on origins.

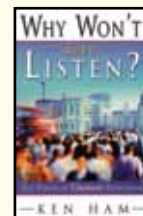

Unformed and Unfilled A Critique of the Gap Theory

Weston Fields

2005. Master Books, 245 pages.
Regular price - \$12.00,
Member price - \$10.25.

This is a reprint of the classic and definitive critique of the gap theory compromise. The usage of the Hebrew words that supposedly support the gap theory in Genesis 1:1-2 is thoroughly analyzed. Analysis of the day-age theory and evidence of a recent creation are also provided.

Why Won't They Listen? The Power of Creation Evangelism

Ken Ham

2002. Master Books, 181 pages.
Regular price - \$11.00,
Member price - \$8.75.

The witness of creation is so powerful (Romans 1:20) that creation can be used to evangelize. This book tells how you can effectively use creation to witness to a culture that is much like the Greeks in Acts 17.

DVD

State of the Nation

Ken Ham

2009. Answers in Genesis, 63 min. DVD.
Regular price - \$13.00, Member price - \$11.00.

Ken Ham provides not only a state of the nation, but also a state of the church. He also documents why 70% of young people leave conservative churches after graduation from high school, and how this affects the church and society. This DVD summarizes a poll of 1,000 young people ages 20 to 28, who went to church regularly in their youth. Their reasons for leaving all too often focused on their doubts about the accuracy of the Bible as God's Word because of the evolutionary teaching presented to them in K-12 grades.

YOUTH

NEW!

The Case of the Missing Mountain

Kim Jones

2011. Master Books, 80 pages.
Regular price - \$15.00,
Members price - \$13.00.

This full-color, activity book presents all the major creation/Flood evidences seen at Mount St. Helens in the form of an adventure story. Mystery Rangers Jen and Jack are given clues to solve major geological mysteries, such as the mystery of exploding ice and snow, the mystery of the floating forest, the mystery of the mighty canyon carvers, and five other mysteries. The book helps teach basic geological concepts that would relate to the Flood. Activities include secret codes to solve, mazes to wander, and crossword puzzles to decipher.

NEW!

Someone's Making a Monkey out of You!

Patrick C. Marks

2010. Markarian Publishing, 197 pages.
Regular price - \$16.00,
Members price - \$14.50.

Written in a clear and easy to understand style, this book presents a thorough overview of the theological and scientific arguments for a straightforward reading of Genesis. It also provides numerous references for anyone wanting to delve deeper into any of the topics. Although written especially for junior high and high school students, adults will also find this book very informative.

Not Too Small at All: A Mouse Tale

Stephanie Z. Townsend

2008. Master books, 32 pages (hard cover).
Regular price - \$13.00, Member price - \$10.00.

What is God's purpose for me? It's something everyone wonders about, even small children. With a world that is so big all around them, young children can be overwhelmed by the thought of trying to accomplish anything. By following the charming story of Grandpa Mouse's journey to the ark as a child, children learn how they, too, can accomplish big things despite (or even because of!) their small size.

YOUTH

In the Days of Noah

Gloria Clanin

1996. Master Books, 72 pages (hard cover).
Regular price - \$15.00, Member price - \$12.75.

This book gives children a glimpse of what life may have been like in the time of Noah. It also provides them with answers to common questions about Noah and the ark.

Why is Keiko Sick?

Stacia McKeever, Illustrated by Ingrid Beyer

2006. Master Books, 32 pages (hard cover).
Regular Price - \$13.00, Member price - \$10.00.

Why do people get sick? Why do people have to die? This book answers these questions through the story of Emily's friend Keiko, who has been diagnosed with leukemia. Children learn how the Fall in the Garden of Eden and man's sin are responsible for sickness and death in the world.

The Wonders of God's World Dinosaur Activity Book

Earl & Bonita Snellenberger

2008. MASTER BOOKS, 128 pages.
Regular price - \$9.00, Member price - \$6.00,

This is an activity book that teaches about dinosaurs from a Biblical point of view. Featuring a variety of puzzles, games, coloring activities, connect-the-dots, etc., each page is designated with its age range, making it simple to use for children big and small. Kids will enjoy learning about some of the most popular—and most unusual—dinosaurs in this highly informative book. There is a color inset in the middle showing some of the most amazing dinosaurs—including size comparisons.

Life in the Great Ice Age

Michael & Beverly Oard

1993. Master Books, 72 pages (hard cover).
Regular price - \$14.00, Member price - \$12.00.

A book for the whole family, giving a story of what life would be like if you were teleported to a cave just south of the ice sheet in Europe. While describing aspects of the ice age, the cave family undergoes such adventures as a woolly mammoth hunt and a battle with a cave bear.

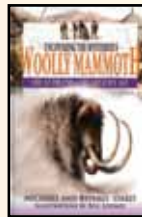

Dinosaurs Unleashed

Kyle Butt & Eric Lyons

2004. Apologetics Press, 80 pages (hard cover).
Regular price - \$11.00, Member price - \$9.00.

Are dinosaurs mentioned in the Bible? When did dinosaurs live? Were dinosaurs on Noah's Ark? What happened to the dinosaurs? This highly illustrated book provides answers to these and other questions for both kids and adults.

Uncovering the Mysterious Woolly Mammoth: Life at the End of the Great Ice Age

Michael & Beverly Oard

2007. Master Books, 72 pages (hard cover).
Regular price - \$16.00, Member price - \$13.75.

This beautiful, full color children's book (illustrated by Bill Looney) continues the story of *Life in the Great Ice Age*, but thirty years later. It teaches about the Ice Age and the extinction of the woolly mammoth in story form. The Ice Age was nearly over and people were leaving caves and starting small towns. Agriculture developed rapidly. A majority of the large mammals that lived during the Ice Age went extinct. The story focuses on the many mysteries of the demise of the woolly mammoth in Siberia.

Dinosaurs for Kids

Ken Ham

2009. Master Books,
64 pages (hard cover).
Regular price - \$15.00, Member price - \$13.00.

Provides parents with answers of how to give your children a biblical understanding of dinosaurs. Teaches how dinosaur fossil graveyards were formed, and how popular museum exhibits presented a flawed and distorted evolutionary perspective of dinosaurs intended to indoctrinate children with the teachings of evolution. Full color illustrated, with "fast fact" sections and sidebars.

The Answers Book for Kids Volume 1

Ken Ham with Cindy Malott

2008. Master Books, 48 pages (hard cover).
Regular price - \$8.00, Member price - \$6.50.

Volume 1 of the Answers Book for Kids provides answers to twenty-two of the most asked questions on creation and the Fall for children ages 6 to 12. Such questions include: Why did God have Adam name the animals? and Did Adam and Eve have belly buttons?

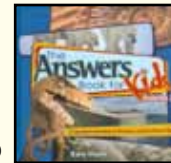

The Answers Book for Kids Volume 2

Ken Ham with Cindy Malott

2008. Master Books, 48 pages (hard cover).
Regular price - \$8.00, Member price - \$6.50.

The Answers Book for Kids Volume 3

Ken Ham with Cindy Malott

2009. Master Books, 48 pages (hard cover).
Regular price - \$8.00, Member price - \$6.50.

Even adults struggle to understand our Creator—the infinite Being who seeks a personal relationship with each of us. Now kids can begin to understand both God's Holy Word and the importance of Him in their lives—what He expects from them, why it is vital to follow His plan for their lives, and the love He has for them.

This book will give you the opportunity to leave a legacy to the children in your life. A legacy of trust in God and His Word.

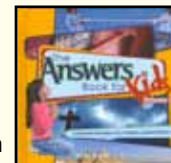

The Answers Book for Kids Volume 4

Ken Ham with Cindy Malott

2009. Master Books, 48 pages (hard cover).
Regular price - \$8.00, Member price - \$6.50.

At the heart of the Bible is the theme of sin, salvation through Christ, and guidance for living the kind of life that honors our Creator God. Since Adam and Eve chose to disobey in the Garden of Eden, questions about sin, salvation, and the Christian life have often puzzled us.

This book gives answers intended to form a strong and lasting faith foundation in the next generation. More importantly, it will set the example of seeking answers—even for the toughest questions—in God's Word, our final authority.

Society Membership

The Creation Research Society is a scientific membership society with a focus on research and publication. However, anyone may become a member of the Society if they are in agreement with the society's statement of faith (see www.creationresearch.org). Those with advanced degrees in scientific fields also qualify for voting membership. For membership information or payment call 928-636-1153 or see our website, www.creationresearch.org.

Some of the Benefits of Society Membership:

1. Subscription to the *Creation Research Society Quarterly*. The *Quarterly* is printed four times per year, and is a premier, peer-reviewed scientific journal with worldwide distribution. Beginning its 46th year of publication, this journal features technical articles as well as letters and short scientific notes that deal with a variety of areas in creation science.

2. Subscription to *Creation Matters*. This publication is a popular-level newsletter printed 5-6 times each year. It features articles about current scientific discoveries, educational policies, and political activities and decisions. It also contains announcements of new CRS books, reviews of books and videos, and up-coming CRS seminars, presentations, and other events.

3. Exclusive on-line access to the members' section of the Society's web site (www.creationresearch.org), which contains early posting of the *Quarterly* and *Creation Matters* as well as an archive collection of both publications.

4. Member's discount on most books and videos from the CRS bookstore.

5. Member's discount on past printed issues of the *Quarterly* and on the electronic copies of previous issues of *Quarterly* on CD. Also, discounts on any CRS tours and trips, and any future CRS conferences including the upcoming CRS conferences.

6. Members may submit a research proposal to the Society for funding considerations. Each year the Society actively supports the research projects of several qualified creation scientists.

7. Participation in CRSnet, an internet discussion forum exclusively for CRS members. Any member interested in participating is free to discuss a variety of scientific and theological topics related to creation/evolution.

8. The opportunity to support and encourage fellow Christians and creationists through the only international society of young-earth creation scientists.

Funding and Mission

The Society depends on the prayers and generous gifts from our friends. We want to offer a special thanks to all those who have supported the work of CRS. As a 501(c)(3) organization, all contributions to the Creation Research Society are tax deductible. Gifts of stocks, bonds, mutual funds, and other appropriate assets are a popular means of supporting CRS. If you have owned these assets for at least one year, and they have increased in value since being purchased, you may not have to pay capital gains tax on contributions made from these funds. Also, if you donate funds that have lost value since your original purchase, the amount of loss for tax purposes combined with the charitable deduction may actually give a greater return than not donating the fund.
